express yourself...

Central High School students are wonderful, warm and intelligent. They have many vibrant and multilayered sides to them. The class of 2012 is extraordinary...they have far surpassed all the challenges presented to them in these past four years and have made us all so very proud.

Mr. Ras Baraka

I would like to first say thank you to the Class of 2012 for pushing Central towards higher expectations, and for starting us down the path of bigger and bolder opportunities. It was your determination and courage in the community and the classroom that allowed others to imagine their own possibilities. I say to you "keep pushing." There are bigger tests ahead of you and you have all that you need to do well, and what you don't have you have the ability to seek out and attain. Not only is the world awaiting your arrival- we desperately need it. We need bright eyed young people with enormous imaginations and an incredible passion for change. We need young people with strong convictions and the ability to overcome great adversity. We need young people with an unyielding sense of love for themselves and their community. We need you. Get out there and do your part!! Congratulations Class of 2012 I will miss you all!

Samodd Cooper

Taliyah Cullum

Dear Class of "2012"

As I closed the 2008 school year as Senior Class Advisor, I had already decided that I was going to be the advisor for the class of 2012. My heart and soul claimed this class before I had even laid eyes on you. I loved you all long before I saw your faces. I some how knew that this class was going to make a difference and you have. Over the past 4 years your skills, intelligence, and character have been put to the test. Not only did you come through with flying colors, you dominated and showed the world what you are made of. As you move on in life to face your future endeavors and all of life's challenges, know that the sweat and tears that were produced at Central were not in vain. Take pride in yourself and move forward, with a sense of purpose and direction. Use the lessons that you have learned here to start achieving the goals that you put in place. Make yourself better than you could have ever imagined and do not ever sell yourself short. Remember you will always have a family here at Central that loves you unconditionally. The serenity prayer is powerful as well as endearing, "God Grant me the serenity to accept the things I cannot change, courage to change the things that I can and wisdom to know the difference". Use your wisdom to make the right decisions in life as Stephen Covey says, "While we are free to choose our actions, we are not free to choose the consequence of our actions".

Peace, Love and Blessings Mrs. Kia-Jhna Jones-Dale
